

Dinosaur Egg Patrol

HOST ONLY - preparation and story

Includes answers. Keep these pages with an adult.

The dinosaur camp mixed six nest survey cards. Each of five desk checks will rule out one mistaken nest. Recover every check before choosing the correct card. Collect five named badge digits and use the final sheet. Every clue is on the table; ask the host for one hint at a time.

1. Print one player pack and two record sheets per team. Keep the host answers and all three hint levels with the adult.
2. Keep every clue as a full sheet at one table. Put the final sheet face down until all five results are recorded. Nothing needs cutting, folding or hiding.
3. Give each child a pencil. Choose a reader, recorder and checker, and swap jobs after each clue. Use one team for 2-4 children or two teams for 5-6.

Players: 4; teams: 1. Print one player and prop set per team. Invitations and certificates: 4 each.

Paper and pencils are enough. Keep whole sheets at one table; nothing needs cutting, folding or hiding.

Trail desk: Start at S. Follow open cells with no diagonal moves. Explore the branches and find the single reachable numbered exit.

White = open. Dark = wall. No diagonal moves.

Row / column: start at top left; each cell is one step.

Final badge: _____

Need help? Ask your host for one hint at a time.

Dinosaur Egg Patrol

Hint cards - level 1 (spoilers; keep with host)

1. Trail

Begin at S and trace only white cells.

2. Keeper

No item can belong to two people. Cross out each forbidden pairing.

3. Shell

The printed cards are deliberately out of order.

4. Load

Loose units are not parcels. Every parcel has equal weight.

5. Label

Columns A-D run left to right. Rows 1-3 run top to bottom.

6. Final

Keep all five named badge results beside this sheet.

Dinosaur Egg Patrol

Hint cards - level 2 (spoilers; keep with host)

1. Trail

The first move from S is right. Follow only edge-connected white cells; a corner touch cannot cross a wall.

2. Keeper

Sol cannot have two items, so Sol must have Shell.

3. Shell

Read survey must come first. Work out which action comes directly after it.

4. Load

Remove 4 loose units from 12. That leaves 8 for the equal parcels.

5. Label

The first coordinate D1 means column D, row 1. Its letter is E.

6. Final

Use C1=Trail, C2=Keeper, C3=Shell, C4=Load, C5=Label.

Dinosaur Egg Patrol

Hint cards - level 3 (spoilers; keep with host)

1. Trail

The connected corridor reaches row 5, column 5. Copy the exit label printed there.

2. Keeper

Cross Shell off for the other two people. Apply the last NOT rule, then find Sol's item.

3. Shell

The first two actions are Read survey, then Check shell. Finish the chain and read position 2.

4. Load

Share 8 equally among 2 parcels. Substitute one parcel's weight into the second rule.

5. Label

Begin with E, then read A3, A3, B1 in order. Use the complete word's conversion row.

6. Final

Each wrong record differs in just one column. Cross out all five wrong records, then copy the complete remaining code.

Dinosaur Egg Patrol

Team 1 badge record (no cutting needed)

Write a digit beside each badge as you solve its clue.
