

Dinosaur Egg Patrol

Hint cards - level 1 (spoilers; keep with host)

1. Trail

Begin at S and trace only white cells.

2. Keeper

No item can belong to two people. Cross out each forbidden pairing.

3. Shell

The printed cards are deliberately out of order.

4. Load

Loose units are not parcels. Every parcel has equal weight.

5. Label

Columns A-D run left to right. Rows 1-3 run top to bottom.

6. Final

Keep all five named badge results beside this sheet.

Dinosaur Egg Patrol

Hint cards - level 2 (spoilers; keep with host)

1. Trail

The first move from S is right. Follow only edge-connected white cells; a corner touch cannot cross a wall.

2. Keeper

Sol cannot have two items, so Sol must have Shell.

3. Shell

Read survey must come first. Work out which action comes directly after it.

4. Load

Remove 4 loose units from 12. That leaves 8 for the equal parcels.

5. Label

The first coordinate D1 means column D, row 1. Its letter is E.

6. Final

Use C1=Trail, C2=Keeper, C3=Shell, C4=Load, C5=Label.

Dinosaur Egg Patrol

Hint cards - level 3 (spoilers; keep with host)

1. Trail

The connected corridor reaches row 5, column 5. Copy the exit label printed there.

2. Keeper

Cross Shell off for the other two people. Apply the last NOT rule, then find Sol's item.

3. Shell

The first two actions are Read survey, then Check shell. Finish the chain and read position 2.

4. Load

Share 8 equally among 2 parcels. Substitute one parcel's weight into the second rule.

5. Label

Begin with E, then read A3, A3, B1 in order. Use the complete word's conversion row.

6. Final

Each wrong record differs in just one column. Cross out all five wrong records, then copy the complete remaining code.
