

Meteor Route Control

HOST ONLY - preparation and story

Includes answers. Keep these pages with an adult.

The route desk has one connected corridor, a fuel record and a coded waypoint. Use all five navigation checks to choose the route through the final stop network. Collect five named badge digits and use the final sheet. Every clue is on the table; ask the host for one hint at a time.

1. Print one player pack and two record sheets per team. Keep the host answers and all three hint levels with the adult.
2. Keep every clue as a full sheet at one table. Put the final sheet face down until all five results are recorded. Nothing needs cutting, folding or hiding.
3. Give each child a pencil. Choose a reader, recorder and checker, and swap jobs after each clue. Use one team for 2-4 children or two teams for 5-6.

Players: 4; teams: 1. Print one player and prop set per team. Invitations and certificates: 4 each.

Paper and pencils are enough. Keep whole sheets at one table; nothing needs cutting, folding or hiding.

Meteor Route Control

HOST ONLY - solution guide

1. Corridor: 7

The open corridor from S reaches row 5 column 5, exit 7; the other labelled exits are separated by walls.

2. Fuel: 1

Known stock: $12 + 2 - 2 = 12$. Closing stock 13 minus 12 gives the missing return 1. Cancelled +7 never arrived.

3. Pilot: 0

Ari has Radio; Kai has Map; Uma has Log. Uma's item gives 0.

4. Beacon: 7

The decoded word is SAFE; its row gives 7.

5. Point: 8

The route ends at row 3, column 3. That cell gives 8.

6. Final: 17807

Start > Stop 1 > Stop 2 > Stop 3 > Stop 4 > Stop 5 > Finish; Fuel > Beacon > Point > Pilot > Corridor

Final badge: _____

Need help? Ask your host for one hint at a time.

Meteor Route Control

Hint cards - level 1 (spoilers; keep with host)

1. Corridor

Begin at S and trace only white cells.

2. Fuel

The missing amount is a return into stock. The cancelled delivery never happened.

3. Pilot

No item can belong to two people. Cross out each forbidden pairing.

4. Beacon

Use the letter under each named shape.

5. Point

Move one square for each arrow. A revisit still counts as a move.

6. Final

Keep all five named badge results beside this sheet.

Meteor Route Control

Hint cards - level 2 (spoilers; keep with host)

1. Corridor

The first move from S is right. Follow only edge-connected white cells; a corner touch cannot cross a wall.

2. Fuel

Start with 12. Apply +2 then -2. Ignore the cancelled +7.

3. Pilot

Kai cannot have two items, so Kai must have Map.

4. Beacon

The first two shapes give S then A. Decode the remaining shapes the same way.

5. Point

After the first 4 arrows, you are at row 1, column 3. Continue from there.

6. Final

At Start, choose Stop 1. Dead end has no path to Finish.

Meteor Route Control

Hint cards - level 3 (spoilers; keep with host)

1. Corridor

The connected corridor reaches row 5, column 5. Copy the exit label printed there.

2. Fuel

The known entries leave 12. How much must return to reach the closing stock of 13?

3. Pilot

Cross Map off for the other two people. Apply the last NOT rule, then find Uma's item.

4. Beacon

Write SA first, then one letter per remaining shape. Choose the table row matching the whole message.

5. Point

From that checkpoint follow left, down, right, down. Copy the last cell.

6. Final

Follow Stop 1, 2, 3, 4, 5 to Finish. Copy the badge digit beside each stop in that order.

Meteor Route Control

Team 1 badge record (no cutting needed)

Write a digit beside each badge as you solve its clue.
